# FAITH WISDOM SERVICE

### College Park Elementary [ON]

At the beginning of COVID, students at CPES raised over \$2500 for an orphanage in India. More recently, they presented an outdoor Christmas program to spread love and Christmas hope, not only to their school families, but to the community at large.

Another gift of the season was having Grade 5/6 classes go out caroling and collecting non-perishable food items for the Adventist Community Service Centre as a part of giving back and spreading cheer. While the world is in chaos, CPES learned that they can find hope in Jesus and still be a light in the COVID darkness.

### Okanagan Christian School [BC]

Every year the OCS middle/high school visits the North Okanagan Valley Gleaners to help prepare food at their warehouse.

The food they produce gets shipped across the world to help deal with world hunger. They also adopted a road and stream in Kelowna, so they clean those twice a year, often collecting 5 or more bags of garbage.

### Shuswap Adventist School [BC]

35 students at Shuswap raised \$32,000 to help combat global starvation, an amount that turned into \$128,000 with matching funds from ADRA Canada and the Canadian Foodgrains Bank.

### Deer Lake School (DLS)

Gr. 3 students learned to knit and made over 40 hats to donate to the Royal Columbian NICU for premature babies.
